

# ULTIMATE CHECKPOINT SYSTEM

WITH 15 MINUTES A DAY YOU CAN START MAKING MONEY RIGHT NOW !

**ARE YOU FINALLY TIRED OF ALL THE HYPE AND PROMISES THAT MILK YOU OF ANY CASH YOU HAD LEFT AND LEAVE YOU WITH NOTHING BUT BROKEN DREAMS AND EMPTY POCKETS?**

Let me tell you I sure was! But you'll absolutely LOVE this new system we came up with to Fight Back and you can start making money right now. It runs for FREE and does it practically on its own. I'm just getting started, but the potential is in the thousands each month with you and a few others helping. Before you get very far, you'll see exactly how easy it multiplies.

I'll always be honest with you and I have to tell you, this is so good, there's no way I'm going to just throw it out there and let everyone trash it until it doesn't work as well. I set up a series of simple checkpoints you need pass through to show you're serious and not just curious before I spill the beans. **Here's the first three:**

- 1- Download a [FREE eBook by Harvey Segal](#) and **READ IT!** (at least from Chapter five on). This explains the funding source we use so you don't need to supply anything out-of-pocket once you get started. You only need to understand how it can bring in \$10 bills!
- 2- Get a free [PayPal Premier or Business](#) account if you don't have one. You'll need it to hold all the money you make while you're off doing the other stuff you always wanted to.
- 3- Get a [FREE Gmail](#) account just for this plan. Then register it with your PayPal account and make it primary. (*Click on My Account, Profile and Add or Edit Email*) You can still use all your other emails registered there, but you want this one set up for all your automatic payments that will soon be coming in response to the ads I show you how and where to run.

Up to this point, you haven't been asked to spend a penny or sign up for any opt-in list so you get hounded until you need to change your email address. I'm NOT going to chase you, stay anonymous until YOU make the decision to move forward to the next step with no stress.

You'll want to get the \$10 resell rights, so you can sell it yourself over and over with a website like mine I'll set up for you free. If you don't understand that, find me on the [Yuwie Social Network](#) so I can help you figure it all out. This is already the best thing I've done yet!

Now it's up to you, is it fish or cut bait? You have NOTHING to lose and you just might learn something no matter what you decide to do next.
